HYDROBIOLOGICAL JOURNAL

VOLUME 21

CONTENTS FOR 1985

NUMBER 1

A.P. Stadnichenko: Interrelationships between a Host (Fresh Water Mollusk) and Parasite (Trematode) 1
A.V. Ivatin: Bacterioplankton of Kuybyshevskiy Reservoir 7
O.M. Kozhova, V.N. Pautova, L.R. Izmest'yeva, and I.K. Davydova: Chlorophyll *a* in the Water of Lake Baikal 12
N.P. Klayn: Quantitative Characteristics of Green Algae Growth 20
O.M. Arsan, V.D. Solomatina, and V.D. Romanenko: Temperature Acclimation and Intracellular Bioenergetic Processes in Carp 25
I.F. Mityanina and N.G. Yeremova: Growth and Metabolism of *Daphnia magna* during Long Term Culture at Constant Temperatures 30
V.V. Metelev: A Method of Detecting Organophosphorus Insecticides in Water and Aquatic Organisms 37
N.V. Khominskaya: Alkali Phosphatase Activity of Phytoplankton in Kiev and Kremenchug Reservoirs 41
V.S. Polishchuk and V.A. Tomnitskiy: Phytoplankton of the Lower Dnieper . . 47
M.I. Roukhiyaynen and L.G. Senichkina: Luminescence Analysis of Phytoplankton of the Black Sea 52
A.P. Orekhovskiy and P.I. Shagovenko: Formation of Biomass and Accumulation of Organic Detritus in Reed Thickets 56
G.N. Oleynik and V.M. Yakushin: Study of Composition of Organic Matter of Higher Aquatic Plants in Laboratory Water-Current Models 61
D.L. Venglinskiy, V.A. Sokolova, and M.M. Tyaptirgyanov: Zooplankton of Lakes of Northwest Yakutia 68
O.A. Sergeyeva: Seasonal Dynamics of Zooplankton in the Cooling Reservoir of the Chernobyl' Atomic Power Station 74
G.Kh. Veylande and R.A. Liyepa: Bacterial and Protozoan Benthos of Small Rivers of Latvia 79
V.M. Kychanov and N.A. Volodina: Ecological and Physiological Aspects of Caspian Inconnu, *Stenodus leucichthys*, Reproduction in Hatcheries 87
V.I. Vorob'yev and V.V. Zalepukhin: Biochemistry of Various Quality Spawn of *Aristichthys nobilis* in Hatcheries 91
O.N. Taran and V.M. Tregobchuk: Basic Principles for Ecological and Economic Evaluation of Functional Changes in Aquatic and Periaquatic Ecosystems under the Influence of Anthropogenic Factors 97
G.D. Berdyshev and V.V. Arkhipchuk: Chromosomes of Herbivorous Fishes . . . 103

NUMBER 2

M. Preshing: Effect of Certain Toxicants on the Survival Rate of *Daphnia magna* in a Three-Factor Experiment 1
G.V. Parchuk: Zooplankton of the Soviet Section of the Danube 5
O.P. Oksiyuk and Yu.I. Karpezo: Phytoplankton and Phytobenthos in the Irtysh-Karaganda Canal 11
L.V. Shevtsova and Ya.V. Ponurko: Zoobenthos and Zooperiphyton in the Irtysh-Karaganda Canal 18
V.D. Chmyr: Quantitative Relationships in Marine Planktonic Communities 1. Primary Production and Zooplankton Biomass 25

O.M. Arsan, V.D. Solomatina, and V.D. Romanenko: Temperature Acclimation and Intracellular Bioenergetic Processes in Carp 25
I.F. Mityanina and N.G. Yeremova: Growth and Metabolism of *Daphnia magna* during Long Term Culture at Constant Temperatures 30
V.V. Metelev: A Method of Detecting Organophosphorus Insecticides in Water and Aquatic Organisms 37
N.V. Khominskaya: Alkali Phosphatase Activity of Phytoplankton in Kiev and Kremenchug Reservoirs 41
V.S. Polishchuk and V.A. Tomnitskiy: Phytoplankton of the Lower Dnieper . . 47
M.I. Roukhiyaynen and L.G. Senichkina: Luminescence Analysis of Phytoplankton of the Black Sea 52
A.P. Orekhovskiy and P.I. Shagovenko: Formation of Biomass and Accumulation of Organic Detritus in Reed Thickets 56
G.N. Oleynik and V.M. Yakushin: Study of Composition of Organic Matter of Higher Aquatic Plants in Laboratory Water-Current Models 61
D.L. Venglinskiy, V.A. Sokolova, and M.M. Tyaptirgyanov: Zooplankton of Lakes of Northwest Yakutia 68
O.A. Sergeyeva: Seasonal Dynamics of Zooplankton in the Cooling Reservoir of the Chernobyl' Atomic Power Station 74
G.Kh. Veylande and R.A. Liyepa: Bacterial and Protozoan Benthos of Small Rivers of Latvia 79
V.M. Kychanov and N.A. Volodina: Ecological and Physiological Aspects of Caspian Inconnu, *Stenodus leucichthys*, Reproduction in Hatcheries 87
V.I. Vorob'yev and V.V. Zalepukhin: Biochemistry of Various Quality Spawn of *Aristichthys nobilis* in Hatcheries 91
O.N. Taran and V.M. Tregobchuk: Basic Principles for Ecological and Economic Evaluation of Functional Changes in Aquatic and Periaquatic Ecosystems under the Influence of Anthropogenic Factors 97
G.D. Berdyshev and V.V. Arkhipchuk: Chromosomes of Herbivorous Fishes . . . 103

NUMBER 2

M. Preshing: Effect of Certain Toxicants on the Survival Rate of *Daphnia magna* in a Three-Factor Experiment 1
G.V. Parchuk: Zooplankton of the Soviet Section of the Danube 5
O.P. Oksiyuk and Yu.I. Karpezo: Phytoplankton and Phytobenthos in the Irtysh-Karaganda Canal 11
L.V. Shevtsova and Ya.V. Ponurko: Zoobenthos and Zooperiphyton in the Irtysh-Karaganda Canal 18
V.D. Chmyr: Quantitative Relationships in Marine Planktonic Communities 1. Primary Production and Zooplankton Biomass 25

M.N. Dekhtyar: Ecological Succession in the Littoral Zone of the Dnieper Reservoirs 33
V.N. Pautoba and M.G. Azovskiy: Higher Aquatic Vegetation in Reservoirs on the Angara River 40
A.P. Pavlyutin: Fragmentation of Charophytic Algae during Decomposition 45
L.M. Bagriy-Shakhmatova: Higher Marine Fungi of the Genus *Corollospora* in the Near Shore Zone of the Northwestern Black Sea 50
M.K. Guseynov and V.P. Kurgenyan: Benthic Fauna of the Dagestan Coast of the Central Caspian Sea 53
I.V. Khyazev and N.S. Knyazeva: The Oxygen Balance of Fry Ponds at Various Stages of Exploitation 59
I.B. Bogatova and Zh.I. Erofeyeva: Incubation of Dormant *Artemia salina* Eggs without Preliminary Stimulation of Matching 65
G.G. Rudenko, V.A. Kravchenko, Yu.I. Tarasevich, and V.I. Kozlovskaya: Removal of Algae and Bacteria from Water by Zeolite Filters 69
N.A. Lapteva, G.A. Dubinina, and S.I. Kuznetsov: Microbiological Description of Several Karst Lakes of Gor'kiy Oblast 73
L.P. Braginskiy and E.P. Shcherban': Effect of Synthetic Detergents on *Daphnia magna* and Their Eutrophying Effect on Water Bodies 81
E.B. Kerbabayev, G.N. Strel'nikova, and N.N. Stetsurenko: Toxicity of Dimilin to Certain Hydrobionts 88
Ye.P. Nakhshina: Heavy Metals in the Water Sediment Interface of Water Bodies: A Survey 92
F.B. Shkundina: Evaluation of Eutrophication of Lake Kandry-Kul' from the Floristic Composition of Its Phytoplankton 102
S.F. Komulaynen and Yu.A. Smirnov: Equipment for Studying Periphyton in a Stream 108
Yu.S. Chuykov and P.G. Deniskin: Zooplankton of the Terek Delta 110
N.A. Dubova: A Model of a Periphyton Community 112
V.B. Ushivtsev and A.V. Inzhevatov: Behavior of Crabs in the Vicinity of a Collecting Device 114

BRIEF COMMUNICATION

O.M. Kozhova, V.N. Pautova, and S.S. Timofeeva: *Elodea canadensis* in Lake Baikal 116

NUMBER 3

N.I. Kirpenko and Yu.A. Kirpenko: Factors Affecting Toxin Formation by Algae (a Survey) 1
V.D. Romanenko, T.D. Malyzheva, and N.Yu. Yevtushenko: The Role of Various Organs in Regulating Zinc Metabolism in Fish 7
I.N. Ostroumova and Zh.I. Abramova: Ecological and Biological Conditions of the Use of High Nucleic Acid Microbiosynthesis Products as Fish Feed . . 13
A.Ya. Malyarevskaya: A Review of Biochemical Mechanisms of Adaptation of Hydrobionts to Toxic Substances 20
K.P. Kalenichenko. Effect of Certain Factors on Rate of Biodegradation of Surfactants 32
V.V. Bogatov: A Method of Calculating Migratory Activity and Drift Distance of Benthos in Large Rivers 36
V.P. Baranova: Method of Determining the Amount of Artificial Feed in the Digestive Tract of Fish Larvae 40
Yu.Yu. Sautin: Somatotropin and Prolactin Formation Activity of the Hypophysis and Some Aspects of Protein and Lipid Metabolism in Carp in Warm-Water Pond Culture 42
M.L. del Rio Mispireta: Littoral Cladocerans of Lake Svyatoye 49
A.A. Titov: Effect of Sodium 2,4-D Herbicide on Peroxidase Activity of *Elodea canadensis* 52
V.M. Kudryatsev and N.A. Kudryatseva. Decomposition of Reed Bulrush in the Littoral of Rybinsk Reservoir 55
A.Ya. Malyarevskaya, T.I. Bilyk, V.V. Sherstyuk, and V.A. Tugay: Seasonal Dynamics of Macroergic Compounds in Muscles of Fish 61

N.V. Aladin and I.S. Plotnikov: Microcryoscopic Investigation of Excretion from the Maxillary Gland of *Daphnia magna* with Acclimation to Varying Salinities 70
T.L. Shchekaturina and O.G. Mironov: Alkanes in Organisms of Black Sea Hydrobionts 74
Yu.G. Simakov: Changes in Composition of Microfauna of Activated Sludge Under the Influence of Toxic Substances 79
A.V. Kureyshevich and B.I. Novikov: Calculation of Hydrometeorological Factors in Producing Distribution Diagrams for Phytoplankton and Chlorophyll in Dnieper Reservoirs 87
D.I. Stom, L.I. Belykh, and S.S. Timofeyeva: Determination of Chromaticity of Water on the Basis of Integral Absorption Intensity in the Visible Spectrum 94

BRIEF COMMUNICATIONS

N.P. Zhemaeva: Relation between the Body Length and Weight of *Asellus aquaticus* 97
B. Bekmurzaev: The Mysid, *Limnomysis benedeni*, in the Southern Aral Sea . . 99
V.M. Khromov and A.N. Salakhutdinov: Structure of the Barents Sea Coastal Phytoplankton during Winter 101
I.V. Kryzhanovskiy and V.A. Kundiyev: Sexual Dimorphism of Linear Growth of Bream in Kremenchug Reservoir 105

NUMBER 4

L.N. Zimbalevskaya: Successions, Monitoring and Forecasting of Aquatic Ecosystems 1
O.M. Kozhova and V.N. Pautova: Assimilation Activity of Baikal Phytoplankton 8
Yu.N. Tokarev, L.A. Radchenko and V.N. Popovichev: Utilizing Characteristics of Bioluminescence for Estimating Primary Production in the Ocean 17
V.V. Sherstyuk, A.N. Sidel'nikova and L.I. Stetsenko: Suspended Organic Matter in the Water of Tsibul'nik Bay of Kremenchug Reservoir 21
V.D. Chmyr: Determination of Specific Production of Copepods under Conditions Approximating Natural 25
V.S. Sarviro: Temperature Dependence of Duration of Development and Specific Growth Rate of Immature Females of *Daphnia longispina* in Nursery Experiments 28
G.A. Zhdanova and S.L. Gusynskaya: Distribution and Seasonal Dynamics of *Dreissena* Larvae in Kiev and Kremenchug Reservoirs 35
A.I. Kovrizhnykh: Dynamics of Filamentous Algae in the Severskiy Donets-Donbass Canal and Causal Factors 41
V.D. Romanenko: Development of Fresh-Water Hydrobiology in the Ukraine (on the 70th Anniversary of the Dnieper Biological Station) 47
V.V. Aleksandrov and L.A. Kutikova: Connections between Diel Migration of Zooplankton and Fluctuations in the Earth's Electrical and Magnetic Fields 59
T.I. Kazantseva and T.S. Smirnova: A Mathematical Model of the Zooplankton Community of Southern Lake Ladoga 70
N.I. Varenko and A.V. Misyura: Role of Phytoplankton in Microelement Cycling in Dneprodzerzhinsk and Zaporozh'ye Reservoirs 80
D.A. Nesterova: Mass Development of the Peridinium *Exuviaella cordata* and the Diatom *Certaulina bergonii* in the Western Black Sea 85
S.V. Krutovskiy, B.V. Yakovenko, R.N. Shandruk, S.V. Bashchuk and A.F. Yavonenko: Methodology for Determination of Total Lipid Content in Carp Tissues 90
T.A. Kharchenko and A.V. Lyashenko: Destruction of Allochthonous Organic Matter in Canals in the Presence of *Dreissena* 93
V.M. Tsarenko: Characteristics of Assimilation of Organic Acids in Several Species of Algae 99
R.V. Khimko: Characteristics of Bioelectrical Reaction of Higher Aquatic Plants under Changing Illumination 104

N.A. Ovcharenko: The Fauna and Ecology of Microsporidia in Fish of the Family Gobiidae of the Lower Dnieper, Dnieper-Bug, and Berezanskiy Lagoons 109

NUMBER 5

N.G. Teplinskaya and N.S. Bondarenko: Bacterial Production in Near-Surface Layers in the Western Part of the Black Sea 1
Ye.V. Nastenko and L.N. Polishchuk: Current Status of Black Sea Cladocerans 7
V.P. V'yushkova: Principal Zooplankton Species in Volgograd and Saratov Reservoirs 15
Yu.K. Gaydash and A.I. Korableva: Amino Acids of Bottom Sediments as a Factor in the Distribution of Oligochaetes in Zaporozh'ye Reservoir . 20
A.Ya. Yefimkin and L.V. Mikulich: Reproduction of Grass Shrimp *Pandalus kessleri* in Peter the Great Bay 24
O.G. Mironov: Prospects for Biological Control of Marine Pollution . . . 28
Ye.A. Kuznetsov: Horizontal Distribution of Bacterioplankton in High-Productivity Fish-Raising Ponds 32
A.I. Sakevich and V.M. Tsarenko: Diurnal Variation in Concentration of Extracellular Organic Acids in Algal Culture Media 39
V.D. Romanenko, V.D. Solomatina and T.G. Grebenkina: Calcium Metabolism of Fish at Various Environmental Temperatures 45
A.K. Vinogradov and B.I. Beletskiy: Ecological-Toxicological Aspects of Sodium Standards of Wastewaters Discharged into the Sea 49
V.I. Kozlovskaya and G.M. Chuyko: Changes in Brain Acetylcholinesterase Activity of Perch, *Perca fluviatilis*, Produced by Chlorofos 55
L.P. Lazareva: Changes in Biological Characteristics of *Daphnia magna* from Chronic Action of Copper and Nickel at Low Concentrations . . . 59
A.I. Denisova, N.V. Levitskaya and V.M. Sidorenko: Comparative Description of Hydrochemical Conditions of Shallow-Water and Deep-Water Zones of Dnieper Reservoirs 63
M.I. Gladyshev: Assessment of Statistical Probability of Differences in Zooplankton Concentrations in Replicate Samples 70
V.S. Sarviro: Measurement of Maximum, Minimum and Average Daily Temperature in Shallow Water 75
O.V. Pashkova: Ecological Classification of Epibenthic Animal Populations in the Shallow Waters of Dnieper Reservoirs 79
D.Ya. Fashuk: Summer Oxygen Regime in the Epibenthic Water Layer of the Northwestern Black Sea 85
A.V. Mitin: The Isozyme Spectra of Hemolymph Enzymes in Mayfly Nymphs as an Indicator of Industrial Pollution 89
I.T. Oleksiv: Species Composition and Abundance of Planktonic Infusoria in Ponds 94
O.P. Danil'chenko, N.S. Buzinova and L.V. Kolosova: The Effect of Stanno-Organic Compounds on the Functional Condition of Mollusks 98
G.I. Kovaleva: Biochemical Indices of Sodium Fluoride Toxicity in Experiments on Porgy Tissue 102
L.V. Bortkevich: Daily Vertical Migration of Corophiids (Amphipoda, Corophiidae) in Estuaries of Northwestern Prichernomor'ya 105

NUMBER 6

A.I. Merezhko: Structure and Character of Interrelationships of Primary Components of Small River Ecosystems 1
Yu.V. Mezhevikina and N.S. Pechurkin: Intensity of Respiration and Efficiency of Food Assimilation by Protozoans 8
F. Akhrorov: Production of Benthos in Lake Yashchil'kul' 14
Yu.G. Aleyev and S.A. Khvorov: Buoyancy as a Function of Life Forms of Hydrobionts 22
R.E. Saduakasova, N.B. Vorob'yeva and L.P. Ponomareva: Feeding Interrelationships of Juvenile Fishes of Lake Balkhash 27
N.Ya. Cherkashina: Feeding of Crustaceans of the Family Astacidae in the Azov Basin 33

E.B. Zubenko: Feeding in Bream in Tsibul'nikskiy Bay of Kremenchug Reservoir 38
M.V. Martynova: Role of Certain Benthic Organisms in Removing Nitrogen and Phosphorus Compounds from Bottom Sediments (A Survey) 42
G.Ye. Shul'man: Problems Concerning Ecological Physiology and Biochemistry of Fish 47
V.D. Solomatina: Metabolism of Adenylic Nucleotides in Fish during Temperature Acclimatization 55
N.Yu. Yevtushenko: Rate of Lipid Metabolism in Carp Liver as a Function of Manganese Concentration in Water 60
L.P. Braginskiy: Some Principles for Classifying Fresh-Water Ecosystems in Terms of Toxic Pollution Levels 63
V.V. Stupina and L.I. Lenova: Involvement of Chlorococcus Algae in Decomposition of Caprolactam in the Aquatic Environment 73
Review of "Role of Zooplankton in the Productivity of Kremenchug Reservoir" 79
N.N. Dolya, V.L. Vladimirov and I.I. Babich: An Improved Device for Concentrating Plankton 80
A.A. Protasov: Method of Sampling Periphyton from Nonliving Substrates . 82
V.P. Gandzyura: Phosphorus Content of Fish in Dnieper Reservoirs 84

BRIEF COMMUNICATIONS

D.I. Stom, T.A. Gil' and A.E. Balayan: Mechanism of Decrease in the Toxicity of Hydroquinone in the Presence of Other Phenols 89
R.P. Zhupanenko and Ye.N. Yanovskaya: Phytoplankton of Krasnyy Oskol Reservoir 93
A.V. Chaykovskaya and Ye.T. Uskova: Composition of the Extrapallial Fluid of the Black Sea Mussel 95
